

ENVIRONMENTALLY ACCEPTABLE LUBRICANTS

This is to inform users of CRUG-VERSITEC's spare parts that this is an updated list for which EAL Oil's have been tested to date. We will continue adding EAL's as & when each test has been completed. We have confidence due to our R&D process that all EAL's, Mineral, and Carbon-based Oil's are compatible with VERSITON@ FKM material. We have had no failures to date, and do not expect any.
